HONDA CIVIC TYPE R (EP3) STAGE 1 SUPERCHARGER CONVERSION

£2300+vat

TTS PERFORMANCE have developed this superb supercharger conversion to give you a 50% plus power gain and give you even better drivability than the standard car. With 265 bhp and 170 ft.lb of torque at the wheels the car to pull hard through its entire power band with no glitches or fuss, no throttle lag, just seamless power. This conversion requires very little maintenance, utilising the genuine Honda belt tensioning system means OEM reliability. This conversion outperforms all other commercially available supercharger conversions on the market*. The conversion is available for both air conditioned and none air conditioned cars. The durability of the standard engine and transmission is not over stretched by this conversion so reliability is not compromised. This conversion requires the Hondata K-pro ECU to complement the installation.

*with exception of the st2 and 3 Rotrex conversions.

93 OCTANE (MON X RON/2 METHOD) OR 97OCT RON. Minimum.

THIS CONVERSION SHOULD BE TREATED WITH RESPECT. ALTHOUGH IT TRANSMITS THE MOST CIVILISED POWER AVAILABLE YOU SHOULD TAKE TIME TO ACUSTOM YOURSELF TO ITS PERFORMANCE.

Performance:-

265 WHEEL BHP, 170 LB.FT TORQUE

0-60 in less than 6 seconds

0-100 in less than 13 seconds

¼ mile in less than 14.50 seconds

160+mph top speed
