TTS Supply Championship Winning Engines in 2002

National Autograss Champion 2002 Class 8

Anthony Ross

Anthony was running a TTS prepared Suzuki Hayabusa engine in a Harvey chassis.

The engine capacity was increased to 1349cc together with some additional tuning of the engine.

National Autograss Champion 2002 Class 10

Paul Harvey

Paul was running an awesome TTS dual engined Suzuki GSXR1000 car with a Harvey chassis.

The 2 engines combined with some amazing engineering and fuel setup skills proved an unbeatable combination

National Autograss Runner Up 2002 Class 8

Kaye Whitehouse

Kaye was running a Suzuki Hayabusa 1300cc TTS engine combined with the new TTS supplied TFI Fuel Injection Manager

Well done to all competitors who chose only TTS for their engine work

TTS have 6 out of 8 engines in the National Finals

TTS Performance Engineering has again proved the quality and performance of their engine services.

The finals of the Autograss National Championships took place on Sunday 4th August.

The venue was Tenby in South Wales.

Class 10 Championship

Paul Harvey was in great form with the awesome twin GSXR1000 engines pumping out a huge amount of horsepower.

Paul raced away to win all three heats and then the final in a lights to finish display of great driving.

The reliability and power of the car has been proven without a doubt and the setup that TTS have done with the fuel system is exceptional. Paul is really pleased and says that 'Harvey Fabrication will only recommend TTS for our engine preparation and tuning work'

Thanks Paul, we enjoyed it too!!

Class 8 Championship

Anthony Ross had a great day in his TTS tuned 1349cc Suzuki Hayabusa powered Harvey built car. Anthony won all three of his heats and then came from third place behind Kaye Whitehouse and Chris Pope to take the win.

Great result Anthony and well done from all of us at TTS Performance Engineering.

Autograss Championships - Continued

Class 8 Championships

Kaye Whitehouse finished an excellent second in the National Autograss Championships again, with a TTS Performance Engineering supplied engine. This Suzuki Hayabusa engine was tuned but was just using a standard size bore.

Kaye won 2 of her 3 heats and went on the lead the final only to be beaten to the line by Championship winner Anthony Ross.

This was another great triumph for us at TTS Performance. We had all put in a great deal of work and to produce such amazing results is

excellent.

The new TFI Fuel Manager was fitted to all these cars. TTS Performance is the sole distributor for these revolutionary little units. This is the only way to compensate the fuel injection system reliably and cost effectively.

TTS Engines Supplied to 6 out of 8 Finalists

TTS Performance Engineering Ltd has supplied services to 6 out of the 10 finalists in the National Autograss Championships this year.

The combination of reliability and services has

put these competitors at the very top of their sport and we are very pleased to be associated with them.

Our engines have finished 1st, 2nd, 4th, 5th, 6th and 8th in these championships.

About Our Organization...

TTS Performance Engineering Ltd is a high performance motorcycle engineering centre specialising in most Japanese motorcycle engines either fitted to a

car or a bike. TTS have built up an enviable reputation for preparing engines to the highest standards of quality and precision over the last 20 years.

We pride ourselves on providing excellent value for money and superb customer service
